As if having seen combat gives anyone the final say in discussions about armed conflict. Great. You signed up for a job where killing people is part of the gig, and you did it for a paycheck. Whoopdidoo. Let's all line up to blow you now and surrender any opinions we have because you've seen combat.

– [Scumcunt](#) -36 points 10 hours ago +10 / -46

As someone who hasn't seen combat, I still think it's an important point that far too many people here are far too cavalier about the possibility of bloodshed. Just this week we've had threads about preparing for armed insurrection and threads about which parts of the DC metro are dangerous or which hotels people are staying in. Clearly everyone isn't on the same page, and when we have people talking about violence, it's concerning that not everyone sounds prepared for it.

I'll be the first to admit I'm in no position to take up arms and forcefully win our country back. If my choice is full armed conflict or the beginning of a Biden administration, I take the latter. Not proudly, necessarily, but honestly.

We do ourselves a disservice by ignoring the peril of violence. Even if a shot isn't fired in my state, will the economy work? Supply chains? Could I make it through winter with what is in storage and on my land?

I'm not saying that violence may not be necessary, just that we'd do well to make sure we've each come to terms with what that means for us, personally, and how we envision ourselves contributing.

Meanwhile, our enemies are saying things like this: <https://thedonald.win/p/11RNofukZn/buzzfeed-journalist-says-kill-al/c/>

Violence and death is coming whether we fight or not. It's just a question of whether it's roving gangs killing all whites like in South Africa, or if it's us fighting back. If you'll risk your life to further globalist plans but you won't save your own country, then all your combat experience did was make you into a fucking coward.

All antifa had to do was break a few windows, shoot some people with pepper spray and burn down some stores in Democrat cities, where the Communist mayors made sure that nobody got arrested.

And they surrounded some houses and beat some drums.

For that they earned the credibility to make successful death threats against Republicans on boards of elections and Republican judges.

Worked pretty nicely for them. Who really needs to actually shoot people to get their goals accomplished ? Not even needed.

[permalink](#) [parent](#) [save](#) [report](#) [block](#) [reply](#)

▲ 2 ▼

– [Democratitis](#) 🇺🇸 2 points 3 hours ago +3 / -1

You've got that backwards. Antifa is on the same side as anyone who would actively punish them, and because of that, they earned the credibility to "peacefully protest" by burning down cities, murdering a dozen people or so, and causing billions in damage. Since they think "correctly", they ARE correct.

No marxists believe that the struggle is between classes. Any one with high enough IQ understands it is the struggle between one "identity" against another. Today, American identity is under siege by Globalists & CCP.

[permalink](#) [parent](#) [save](#) [report](#) [block](#) [reply](#).

The underpinning of identitarianism is still a fundamentally materialist worldview. Whether they believe that one class is stealing all the resources from another class, or one identity group is stealing all the resources from the other, the fundamental view is that the only real problem in the world is the distribution of resources. And the solution is gibs.

I usually am. It doesn't help that the mods keep giving stickies to lazy memes while ignoring those that actually put hours of effort into theirs.

Here's what Ben wrote under the picture:

“The Tree of Liberty must be refreshed from time to time with the blood of patriots and tyrants.”

We’ve all heard this quote from Thomas Jefferson, but the tree hasn’t been watered much during the existence of our Republic. Especially these days, when citizens have become accustomed to accepting the abuse of tyrants.

Too many have accepted the outright theft of a presidential election by the Democrat Socialists or Bolsheviks or whatever they call themselves these days. They are the Corruptocrat Party being nominally led by an ancient and very corrupt politician with dementia. His party took over our education system and now they want to cancel our history. They’ve pulled down our statues while claiming America is hopelessly evil. they want our Republic destroyed. They want a ‘great reset’ to socialism and globalism.

Our money has been corrupted by the left-leaning Federal Reserve central bankers. Marxism has canceled our culture, our families, and our holidays by means of leveraging lies about a virus. Some, such as Bill Gates, want to cancel humanity altogether.

If President Trump allows our election to be stolen by domestic criminals aided by foreign enemies, then our Republic is at an end. The voting process will become permanently corrupted. A sliver of billionaire and trillionaire elitists will control our elections and everything else. These are dark times and the Christmas star (Jupiter and Saturn aligned) portends an urgent need for action. President Trump has done some things such as his commendable vetoes of Pelosi's pork-stuffed stimulus bill and the NDAA and massive defense spending. He has gifted pardons to Roger Stone and others, but he still needs to pardon Julian Assange and Edward Snowden. Trump has stood up to China and the Swamp, but the latter remains undrained, thanks to feet draggers such as Jeff Sessions and William Barr.

We can't allow our Republic to go gently into that goodnight of socialism and corruption. We can't stand by while our jobs, our liberties, and our elections are brazenly stolen from us. It's time for action, not just grumbling, sloganeering, and 'trusting the plan.' It is now time to use the Insurrection Act and arrest the traitors. Yes, that will inevitably lead to bloodshed, but the Tree of Liberty is thirsty.

Merry Christmas

My eyes have been opened for sure!

I find myself asking if was INDEPENDENCE really about TAXES?

We have had fraud in elections,illegals gaining rights/privileges that even CITIZEN's do not have for YEARS AND YEARS! (THE FUCKING CENSUS FOR REPRESENTATION COUNTS ILLEGALS-SCOTUS RULING)

IF it was really majorly about taxes, WE have got so weak its embarrassing to even say I am AMERICAN.

It was that the colonists were not represented in the British government (they could not vote for parliament), yet they still payed taxes, and the British were stripping them of their rights.

Don't read a history book written after 1990, read the declaration of independence.

With that, it will inevitably snowball into a race war, which is fine with me I'm sick of the pandering, the crime, the lowest denominator. But this country needs a reboot.

The American Civil war was a war between two factions of Americans that were sharply divided on a few key issues, most prominently the issue of slavery. While there may have been some degree of indirect foreign involvement, this was primarily a war between two factions of Americans - to pull a statistic out of my ass, they probably agreed on 95% of what America should be, but disagreed so strongly on the remaining 5% that the only recourse was war.

The American revolution was a war between Americans and the British, and it was fought over the identity of America - the British wanted it to be a subservient, tribute-paying slave-state whose residents had no voice in their own government, while Americans envisioned their country as a land of life, liberty, and happiness, where all men were created equal.

Which one of those sounds more like what we're facing today? (hint: replace all references to Britain with references to China)

A lot them have instant pots on sale due to christmas.

You can cook ALL sorts of things in an instant pot. Chicken, pulled pork, Yogurt... there's a even a recipe for mini 'Boston' Cream Pies. Lots of recipes, if you know where to look. And if you don't like the recipe you can always modify it to your liking.

JC: "You got a problem?" Lenny: "Get out! I got a bomb!" JC: "A bomb's a bad choice for close-range combat." Lenny: "Might as well use it. Rock says I owe him. He won't even give me one vial for it." JC: "What kind of bomb?" Lenny: "I think they said it was called a LAM" JC:* "Tough Luck."* Lenny: "Yeah, you said it."

Everyone in my group are liberals. They are younger than me by only about 10 years and completely brainwashed. Between Christian pacifism and progressive bullcrap they can't see beyond what the media tells them.
